

# ***PNEUMATIC COMPRESSOR***

## Model No. ELK-PN420 Pneumatic Compressor

### Use:

High-performance, robust compressor for basic applications in a biomedical workshop

### Technical Specifications

- Boiler volume: ~24 l
- Oil-free piston compressor
- Controllable, application- compliant working pressure by pressure reducer with manometer
- Cold start by pressure switch with relief valve
- Overload protection
- Power: max 1500W
- Vacuum power: 220l/min
- Efficiency: ~120l/min
- Operation pressure: ~8 bar
- 2 Rubber-coated, sturdy wheels
- Additional manometers for displaying the boiler pressure
- Anti-corrosion treated
- Carry handle with rubber coating
